

EMX-P

Expanding mandrel
Power operated

Expanding mandrel Ø 14.7 - 131.7 mm

- Size 1 - 11
- Highest concentricity
- Air sensing

Application/customer benefits

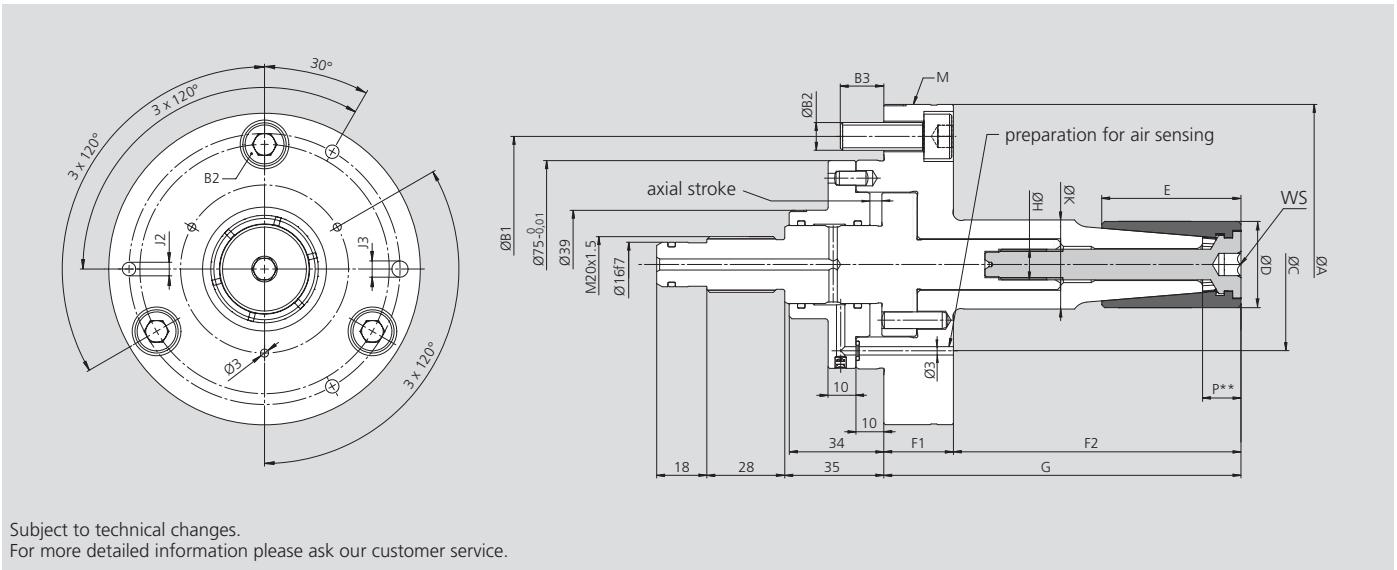

- For turning, milling, grinding and gear cutting operations
- High accuracy and torque transmission due to fixed arbor
- Axial pull down by axial movement of the clamping sleeve during actuation
- Quick set-up

Technical features

- Large expansibility (1 mm in diameter)
- Power operated / manual lubrication
- Flange mounting
- Very rigid design
- Vulcanized expanding sleeve for protection from the penetration of chips (option)
- Preparation for air sensing

Standard equipment

Basic mandrel with draw bolt for power operation
Mounting bolts

Subject to technical changes.
For more detailed information please ask our customer service.
